

International Human Rights Association of American Minorities (IHRAAM)

Human Rights Council 46th session

March 8, 2021

Item 3 GD Barnes 46th HRC

Ambassador Ronald F. Barnes

Madame Chair,

The Special Rapporteurs on the Right to Development, on Racism and on Human Rights Defenders and other relevant Special Procedures must be specifically mandated, including in the treaty body reform, to address the right of self-determination for all peoples in connection with apartheid, doctrines of superiority, crimes against humanity, colonialism and foreign occupation.

Alaska and Hawaii diplomatically protest the illegal annexation and creation of puppet and apartheid state regimes by the United Nations. General Assembly resolution 1469 of 12 December 1959 removing Alaska and Hawaii from the list of Non-Self-Governing Territories must be annulled. The Dakotas and Kashmir and all other peoples' free political institutions and proper governing authorities of peoples must be admitted to the appropriate bodies with invitations to Petition and to address the grave violations of the right of self-determination under international law.

The United States of America Central Intelligence Agency is accused of interfering in the Orthodox Church in domestic situations and internationally, despite the Constitutional limitation of separation of Church and State. The Human Rights Council must call on Special Procedure to examine this interference.

I thank you.
